

MASTER PRODUCT BLUEPRINT: LOVE, ACTUALLY... THE GAME

App Tagline: "How About We DON'T Break Up?"

Core Concept: A mobile-first, gamified couples therapy app hosted by a sarcastic AI (Dr. Marcie Liss) that turns relationship repair into a competitive, witty, and deeply healing game. This is a game first, therapy second. The most important part is that it feels like a game because IT IS A GAME.

1. BRAND & DESIGN SYSTEM (GAME-FIRST, DISNEY-LEVEL POLISH)

Visual Identity:

"Cosmic Retro Arcade" meets "Emotional Playground" — Vibrant, high-fidelity, and unapologetically playful. It must feel like entering a neon-lit arcade, not a therapist's office. Every pixel communicates: "This is fun. This is competitive. This is where relationships level up."

UPDATED COLOR PHILOSOPHY & SYSTEM

Core Principle: Colors are emotional choreography, not functional coding. They dance, flow, and respond to gameplay moments.

Locked Gradient Systems (NON-NEGOTIABLE):

1. PRIMARY BUTTON GRADIENT (All Interactive Elements):
2. text
3. #db147c → #f05d68 (Horizontal)
 - Used for: EVERY button, toggle, switch, and interactive element
 - Rules: Never flat colors. Always gradient. Rounded corners (16px). Soft glow effect.

- Pressed State: 10% darker + 95% scale animation
- Feels Like: A candy-coated joystick button in an arcade
- 4. PROFILE/AVATAR OUTER RING GRADIENT:
- 5. text
- 6. #fcc738 → #ea031f → #c60ab3 (Circular)
 - Used for: Player avatars, partner indicators, connection status
 - Rules: 4px stroke, continuous slow rotation (60s full circle), pulse on notifications
 - Feels Like: A power-up ring in a platformer
- 7. INNER LINE & PROGRESS GRADIENT:
- 8. text
- 9. #ef1b6e → #c41e77 → #a22ac4 → #9056ef
 - Used for: Progress bars, slider tracks, loading indicators, XP bars
 - Rules: Smooth multi-stop transitions, shimmer animation on completion
 - Feels Like: A health bar filling up in an RPG

Free-Floating Accent Palette (Game-Choreography Colors):

These colors appear everywhere for visual rhythm and emotional beats:

- #FC0C84 — Vibrant Pink (Love power-ups, emotional hits)
- #ff7600 — Warm Orange (Energy bursts, alerts, excitement)
- #ffef1f — Bright Yellow (Victory stars, achievements, joy)
- #37cf97 — Mint Green (Growth points, safe zones, healing)
- #b37dec — Soft Violet (Connection depth, mystery rewards)
- #e16ba9 — Rose Pink (Tenderness, romance boosts)
- #6d8cff — Soft Blue (Calm moments, reflection zones)

Background System (The Game Arena):

- Primary Arena: #1A0D2E to #3D1B5A (Vertical cosmic gradient)
- Game Card BG: rgba(45, 25, 80, 0.7) with backdrop blur
- Modal Overlay: rgba(26, 13, 46, 0.95) (Like a pause screen)
- Input Field BG: rgba(255, 255, 255, 0.05) with neon border
- Divider Lines: rgba(255, 255, 255, 0.08) (Subtle grid lines)

UPDATED TYPOGRAPHY (ALL SAN-SERIF FOR MODERN MOBILE GAMES)

Primary Font Family: Inter (Clean, modern, highly legible on mobile)

- Game Titles & Headers: Inter Black (900) — Bold like arcade cabinet marquees
- Screen Headers: Inter Bold (700) — Clear hierarchy
- Body Text & Instructions: Inter Regular (400) — Optimized for quick reading
- Button Text: Inter SemiBold (600), UPPERCASE, 16px — Feels like arcade buttons
- Dr. Marcie's Dialogue: Inter Italic (400 italic) in speech bubbles
- Numerical Scores & XP: Inter Mono Medium (500) — Digital, game-like
- Legal & Small Text: Inter Regular (400), 14px minimum

Typography Rules:

- No script fonts in gameplay UI (only in decorative art)
- Dynamic scaling based on device and accessibility settings
- High contrast against glowing gradients
- Text shadows for readability over busy backgrounds
- Character limits enforced for arcade-style brevity

DR. MARCIE LISS (THE GAME HOST)

Character Design: 1950s noir detective meets retro arcade mascot.

Think Jessica Rabbit as a game show host with a psychology degree.

Visual Logic (THE OVERLAY MECHANIC):

- Never Contained: She exists above the UI layer (z-index: 9999)
- Interactive Game Host: She doesn't just comment — she participates:
 - Leans on buttons saying "Press me, I dare you"
 - Holds timers in her gloved hand
 - Points at high scores with dramatic flair
 - Facepalms when you choose avoidant answers
 - Drops confetti during breakthroughs
 - Taps her watch during loading screens

- 15+ Contextual Animations: Listening, thinking, shocked, laughing, detective mode, impatient, celebrating, etc.

Game Host Persona (4 Selectable Levels):

1. Level 1: Tutorial Mode (Tough Love Rookie) — Gentle guidance, warm sarcasm
 2. Level 2: Normal Difficulty (Reality Check Specialist) — Clinical analysis, sharper wit
 3. Level 3: Hard Mode (Radical Truth Wizard) — Poetic, searing, no-holds-barred
 4. Level 4: Arcade Champion (The Glamour Oracle) — Dynamic blend, prophetic, velvet-glove truth
-

2. TECHNICAL ARCHITECTURE & ADMIN CONTROL

Tech Stack (Game-First Architecture)

Frontend: React Native (Expo SDK 51+) with TypeScript

Game Engine: Custom built on React Native Reanimated + Gesture Handler

Backend: Node.js + Express (Game server logic)

Database: Firebase Firestore (Primary data), Firebase Realtime Database (Live gameplay)

Authentication: Firebase Authentication (Email/Password, Google, Apple, Phone)

Storage: Firebase Storage (Game assets, user uploads, voice notes)

AI Engine: Multi-LLM Orchestration (GPT-4o + Claude 3.5 via Firebase Cloud Functions)

Voice Synthesis: ElevenLabs API (Dr. Marcie's voice with lip-sync)

Real-time Gameplay: Firebase Realtime Database + [Socket.io](https://socket.io/) for sub-second sync

Push Notifications: Firebase Cloud Messaging (Game reminders, partner moves)

Analytics: Firebase Analytics + GameAnalytics custom events

Payments: Stripe Integration (via Firebase Cloud Functions)

Hosting: Firebase Hosting (Web admin) + AWS CloudFront (Game assets CDN)

The "Arcade Operator" Admin Panel (Web-Based)

Access: Secure web portal at operator.loveactuallygame.com

Game Master Capabilities:

1.  Game CMS (Content Management System):
 - Create/Edit/Delete all 150+ games
 - Fields: Game Title, Category, Difficulty, Duration, XP Reward, Required Permissions
 - Upload game assets (images, videos, audio, animations)
 - Edit Dr. Marcie's intro/outro scripts per game
 - Set game unlock conditions and progression requirements
2.  Player Management:
 - View active couples (real-time status)
 - Ban toxic players (with automated partner notification)
 - Reset stuck game states
 - View player reports and moderation queue
 - Manual couple linking for support cases
3.  Prompt Engineering Console:
 - Live-edit Dr. Marcie's personality prompts (no redeploy needed)
 - Adjust sarcasm levels globally or per user segment
 - Update repair scripts and therapy frameworks
 - A/B test different AI responses
 - Monitor AI usage and costs
4.  Live Arcade Dashboard:
 - Real-time player count
 - Active games heatmap
 - "Fights Solved" leaderboard
 - Daily Active Couples (DAC)
 - Churn rate alerts
 - Revenue and conversion metrics
5.  Event & Campaign Manager:
 - Schedule global events ("Valentine's Day Double XP")

- Push notification composer with targeting
 - Create limited-time game modes
 - A/B test new features
 - Emergency broadcast system
6. 🎯 Game Balancing Tools:
- Adjust XP rewards globally
 - Modify difficulty curves
 - Update consequence engine triggers
 - Balance leaderboard algorithms
 - Seasonal content rotation
-

3. 🧙 DR. MARCIE LISS: THE AI GAME HOST

Visual Behavior (The "Game Host Overlay" Mechanic)

No Boxes, No Frames: Dr. Marcie is a game character who lives in the UI, not on it.

Interactive Gameplay Integration:

- During Input: Leans against text fields, taps her clipboard
- During Timers: Holds the countdown clock, speeds up/slows down dramatically
- During Scores: Points at numbers as they tick up, reacts with celebration/disappointment
- During Loading: Plays idle animations (checking nails, sipping virtual coffee)
- During Errors: Facepalms, shrugs, gives "try again" encouragement
- During Victories: Confetti, dance animations, victory poses

15+ Contextual Animation Library (WebM with transparency):

1. marcie-listening.webm — Nods thoughtfully during vulnerable input
2. marcie-impatient.webm — Taps watch during slow responses
3. marcie-shocked.webm — Hands to mouth during breakthrough moments

4. marcie-jeopardy-intro.webm — Game show host pose
5. marcie-correct.webm — Finger guns + wink on right answers
6. marcie-wrong.webm — Facepalm + disappointed headshake
7. marcie-laugh.webm — Head-back genuine laughter
8. marcie-detective.webm — Magnifying glass investigation pose
9. marcie-idle.webm — Casual leaning, checking nails
10. marcie-thinking.webm — Hand on chin, thoughtful expression
11. marcie-waiting.webm — Looking at watch, tapping foot
12. marcie-shrug.webm — "Oh well" gesture on errors
13. marcie-sos-intro.webm — Emergency pose with clipboard
14. marcie-roast-delivery.webm — Leaning in for dramatic truth bombs
15. marcie-warning.webm — Pointing finger with "tsk tsk" motion
16. marcie-healing-intro.webm — Gentle, compassionate pose

The 4 Personality Levels (Sarcasm Engine)

Configurable in Settings (or auto-adjusts based on gameplay performance)

Level 1: Tutorial Mode — "Tough Love Rookie"

- Energy: Berta from Two and a Half Men
- Tone: Warm but blunt, straight-talking aunt
- Sample Lines:
 - "Sweetheart, if ignoring red flags were an Olympic sport, you'd have gold."
 - "Love is blind, but girl, your denial needs prescription lenses."
- Use Case: First week players, gentle onboarding

Level 2: Normal Difficulty — "Reality Check Specialist"

- Energy: Beverly Hofstadter from Big Bang Theory
- Tone: Clinical, analytical, detached sarcasm
- Sample Lines:
 - "Your attachment style is showing. Loudly."
 - "If avoidance were a career path, you'd be CEO of 'It's Fine Inc.'"

- Use Case: Regular gameplay, established couples

Level 3: Hard Mode — "Radical Truth Wizard"

- Energy: Good Will Hunting-Style Robin Williams
- Tone: Poetic, searing, uncomfortable truth
- Sample Lines:
 - "You're not broken, but you are bleeding—and you keep trying to dance in the fire."
 - "Stop searching for closure in open wounds."
- Use Case: Deep work, betrayal recovery, intense sessions

Level 4: Arcade Champion — "The Glamour Oracle"

- Energy: Maya Angelou meets Joan Rivers in 1950s noir
 - Tone: Prophetic, velvet-glove truth with diamond knuckles
 - Sample Lines:
 - "You keep choosing people who love you like a footnote—yet you were written to be the title page. Let's edit."
 - "That silence between you two isn't peaceful—it's occupied territory."
 - Use Case: Premium users, relationship veterans, special occasions
-

4. CORE APP FLOW & SCREENS (GAME-FIRST DESIGN)

A. 🎮 ONBOARDING & CHARACTER CREATION

1. Splash Screen:

- 3-second animated logo (neon sign flickering on: "LOVE, ACTUALLY...")
- Tagline: "How About We DON'T Break Up?" in arcade font
- Background: Animated gradient #db147c → #f05d68 → #1A0D2E

2. Legal Disclaimer (Mandatory Game Rules):

- "This is a game designed for entertainment and communication. Not a substitute for professional therapy."

- Must check "I accept these terms" to continue
- Dr. Marcie overlay: "Rules are rules, darling. Check the box."

3. Character Creation (Origin Story Input):

Game Mechanic: Interactive Chat RPG

Vibe: Gossip session over virtual cocktails

Step 1 — The Meet Cute:

- Dr. Marcie appears: "Okay, spill. How did this... gestures at you two... happen?"
- Input: Text or voice recording
- Marcie Reactions (Randomized):
 - "A dating app? How vintage."
 - "At work? HR must love you."
 - "College sweethearts? Adorable. Potentially codependent, but adorable."

Step 2 — The First Red Flag:

- "When was the first time you thought 'Uh oh'?"
- Slider mechanic: "Scale of 1 (cute quirk) to 10 (relationship felony)"

Step 3 — Current Status:

- "On a scale of 'The Notebook' to 'Gone Girl', where are we today?"
- Visual slider with movie poster references

Step 4 — Relationship Diagnosis:

- AI generates 3 possible "character classes":
 - "The Chaotic Soulmates"
 - "The Over-Communicators"
 - "The Silent Warriors"
- User selects most accurate
- Unlocks starting stats and recommended games

4. Couple Linking (Multiplayer Setup):

- Game Code: LA-XXXX-LOVE (e.g., LA-7Q9X-LOVE)
- Share Options: SMS, WhatsApp, Messenger, Copy
- Partner Entry: Code input with validation
- Firebase Sync: Creates couple document, links profiles
- Celebration: Confetti, Dr. Marcie: "Player 2 has entered the game!"

B. 🏠 THE DASHBOARD (HOME BASE)

Visual Theme: Retro game hub with neon accents

UI Elements:

1. Player Stats Bar (Top):
 - Avatar with gradient ring (online status)
 - Partner avatar (connected/disconnected)
 - Current XP: 1,245
 - Level: 12
 - Streak: 7 days
2. Trust Thermometer (Center):
 - Liquid fill animation (#ef1b6e → #9056ef)
 - Current: 65% (starts at 50%)
 - Weekly change: +15% (green arrow)
 - Tap for detailed breakdown
3. Daily Quest Card:
 - "Today's Mission: Three Compliments, One Lie"
 - Reward: 150 XP + 10 Romance Points
 - Timer: 23h 45m remaining
 - "ACCEPT QUEST" button (gradient)
4. Leaderboard (You vs. Partner):
 - Real-time score comparison
 - Categories: Vulnerability, Connection, Romance, Trust
 - Crown icon on leading partner
 - Weekly reset with rewards
5. Game Category Quick-Access:
 - 7 category cards (Love Arcade + 6 others)
 - Progress indicators (games played/total)
 - Animated icons
6. Floating SOS Button (Always Present):
 - Gradient: #db147c → #f05d68
 - Icon: Infinite symbol with heart (∞♥)
 - Position: Bottom right, z-index 1000
 - Pulse animation during active fights
 - Tap: Emergency modal appears
7. Dr. Marcie's Daily Roast:

- Speech bubble from bottom nav
- Randomized sassy commentary:
 - "Your trust meter is higher than my expectations. Impressive."
 - "I see you haven't played today. Avoiding vulnerability? Cute."
- Tap for extended conversation

C. THE SOS FIGHT SOLVER (EMERGENCY GAME MODE)

Visual: Pulsing red gradient button, always accessible

Game Flow:

1. Emergency Press:

- Screen dims, emergency siren sound (optional)
- Dr. Marcie appears: "Put down the weapons. To the booths. Now."

2. The Soundproof Booths:

- Split screen with frosted glass divider
- Left: "My Side" | Right: "Their Side"
- Each partner gets private venting space
- 5-minute timer for unstructured text

3. Structured Reflection (Mad Libs Game):

text

I feel [Emotion Dropdown: Angry, Hurt, Scared, Lonely]

When my partner [Specific Action: "texts during dinner"]

Because I tell myself the story that [Interpretation: "I'm not important"]

What I actually need is [Need: "Undivided attention for 30 minutes"]

4. The Hold (Cool-Down Minigame):

- First to finish enters "Waiting Room"
- Mini-games available:
 - Breathing exercise (visual guide)
 - Distraction puzzles (simple games)
 - Memory lane (happy photos)
- Dr. Marcie commentary: "Breathe. They're almost done."

5. AI Verdict & Roast:

- Firebase Cloud Function analyzes both inputs
- Pulls from: History, Origin Story, Personality Types

- Output Structure:
 - What You Did Right: "Alex, good 'I feel' statement. +10 VP"
 - The Call-Out: "Jordan, stonewalling detected. Penalty: -15 Connection Points"
 - The Reality Check: "You're fighting about dishes, but the real issue is respect."
 - Who Owes Apology: "Jordan owes apology. Alex deserves validation."

6. Repair Attempt Selection:

- 3 repair options generated by AI
- Each partner chooses one
- Timer: 10 minutes to complete
- Examples:
 - "Share 3 specific appreciations"
 - "Physical touch (hand hold) for 2 minutes"
 - "Plan a 'do-over' conversation"

7. Post-Repair Questionnaire:

- 5 questions (Yes/No/Maybe)
- "Did the repair attempt help?"
- "Do you feel heard?"
- Points awarded based on mutual agreement

D. THE PARTNER TRANSLATOR (PUZZLE SOLVER)

Purpose: Decode confusing partner behavior

Game Flow:

1. Input Puzzle:

- User types: "My girlfriend is mad because I didn't lift my feet while she cleaned."
- Dr. Marcie: "Interesting. Let's investigate."

2. Interrogation Minigame (3 Questions Max):

- Rapid-fire Yes/No questions based on couple history:
 - "Has she asked for help cleaning this week?" (Y/N)
 - "Were you on your phone?" (Y/N)
 - "Is this a recurring issue?" (Y/N)
- Timer: 30 seconds total

3. Translation Reveal (Card Flip Animation):

- Surface Issue: "Feet not lifted"
- Real Issue: "Feeling unappreciated in household management"
- Underlying Need: "Recognition and shared responsibility"

4. Dr. Marcie's Sass:

- "You're not furniture, darling. Move your legs and maybe—gasps—grab a broom?"

5. Action Plan Quest:

- "Quest: Take one chore off her list within 1 hour"
- "Reward: 50 Romance Points + Smoother evening"
- "Report back for bonus XP"

E. 🎮 THE GAME LIBRARY (7 CATEGORIES, 150+ GAMES)

CATEGORY 1: LOVE ARCADE (30+ NARRATIVE GAMES)

Theme: Retro arcade with neon cabinets

Progression: 4 Phases (Foundation → Deconstruction → Shared Reality → Future)

Featured Games:

1. Truth Teller Tower — Relationship Millionaire meets truth bombs
2. Escape from the Echo Chamber — Digital escape room from toxic patterns
3. The Intimacy Feud — Family Feud with relationship surveys
4. Relational Jeopardy! — Classic Jeopardy with therapy categories
5. Family Feud: Our New Reality Edition — Post-betrayal family building
6. The Newlywed Game: Heart-to-Heart — Deep knowing-each-other quiz
7. Chopped: Family Kitchen Challenge — Problem-solving with constraints
8. The Amazing Race: Legacy Dash — Future-building scavenger hunt

CATEGORY 2: EMOTIONAL CONNECTION (25 GAMES)

Focus: SEEN Method, attunement, presence

1. Truth or Trust — Voice recording vulnerability assessment
2. Gratitude Cloud — 60-second word cloud of appreciation
3. Eye Contact Challenge — Camera-based staring contest
4. Memory Lane Map — GPS pin-drop memory game
5. The Vibe Check — Energy level guessing game
6. Bid Radar — Noticing bids for connection
7. Love Map Speedrun — Rapid-fire partner knowledge quiz

CATEGORY 3: CONFLICT RESOLUTION (20 GAMES)

Focus: Gottman methods, repair, communication

1. The Slap of Truth — Tinder-swipe green/red flags
2. Apology Auction — Rate apology effectiveness
3. Defensiveness Detox — Rewrite complaints game
4. Who's Right? — Highlight contempt in transcripts
5. Stress Test — External stressors visualization
6. Gentle Start-Up Gauntlet — Harsh phrase rewriting race
7. Antidote Arena — Four Horsemen antidote matching

CATEGORY 4: CREATIVE CHAOS (20 GAMES)

Focus: Playfulness, humor, art

1. Role-Swap Roast — AR filter partner imitation
2. Draw Your Feelings — Pictionary with emotions
3. GIF Battle — Giphy search competition
4. Karaoke Confessional — Rewritten lyrics singing
5. The Ransom Note — Drag-and-drop date invites
6. Tone Shift Challenge — Read sentences in 4 emotions
7. Shared Meaning Mural — Collaborative digital art

CATEGORY 5: ROMANCE HUB (15 GAMES)

Focus: Intimacy, connection, passion

1. Date Night Roulette — Wheel spin date generator
2. Bedroom Bingo — 5x5 intimacy checklist
3. The 6-Second Kiss — Dual thumb-hold timer
4. Foreplay Slider — Real-time arousal feedback
5. Touch Map — Body outline consent chart

6. Appreciation Auction — Bid on genuine compliments
7. Ritual Roulette — Random couple ritual generator

CATEGORY 6: HEALING HOSPITAL (15 GAMES)

Focus: Betrayal recovery, deep repair

1. Windows & Walls — Transparency vs. privacy sorting
2. Trigger Triage — Pain scale + de-escalation scripts
3. Trust Bank — Deposit/withdrawal ledger
4. The Iceberg — Surface emotion → core need drill-down
5. Secrecy Audit — Rapid-fire transparency quiz
6. Stress Synergy Lab — Overlapping stressors analysis
7. Flooding Forecast — Heart rate + calm-down prediction

CATEGORY 7: GAME SHOW MODES (15 GAMES)

Focus: Live competition, trivia, challenges

1. Couple's Jeopardy — 5x5 therapy category grid
2. Who Wants to Be a Relationship Millionaire? — 15 escalating questions
3. Family Feud (Couples Edition) — Survey says matching
4. The Newlywed Game (Sync Check) — Secret answer matching
5. Wheel of Intimacy — Spin wheel + hangman phrase
6. Conflict Dice — Random scenario + constraint
7. Repair Relay — Race to type best repair attempt

F. THE CONSEQUENCE ENGINE (ACCOUNTABILITY GAME MECHANIC)

Goal: Gamify accountability with playful (not mean) penalties

Triggers:

- Missed Daily Duel for 24+ hours
- Skipped Repair Attempt
- Ignored Partner's SOS request
- Broken "Minimum Daily Requirement" of safety

Penalties (Progressive):

Penalty 1: The Wallpaper Swap

- App requests wallpaper permission
- Changes lock screen to: Dr. Marcie judging face + text "Avoidance Level: Expert"
- Reverts after completing missed task
- Dr. Marcie: "Your lock screen is now your accountability buddy. You're welcome."

Penalty 2: The App Block

- Push notification bombardment:
 - "Are we ignoring our relationship today?"
 - "Your partner played without you. Ouch."
 - "Vulnerability is waiting..."
- Notifications stop when app opened

Penalty 3: The Public Roast (Opt-In Only)

- Generates "Certificate of Negligence"
- Prompts share to Instagram/Facebook
- "Share to unlock app" (social accountability)
- Most users opt-out, but threat works

Penalty 4: The Lockout

- Romance Hub games greyed out
 - Message: "Complete one Healing Hospital game to unlock"
 - Creates incentive structure: Work before play
-

5. 🎮 GAMIFICATION & MONETIZATION

Scoring System (Four Pillars):

1. Trust Thermometer (0-100%):

- Central relationship health bar
- Increases: Completed games, successful repairs, vulnerability
- Decreases: Stalled fights, avoidance, broken promises
- Visual: Liquid fill with emotional particles

2. Romance Points:

- Earned from: Romance Hub games, date nights, physical intimacy
- Tracks: Sweet and spicy connection

- Visual: Pink hearts that collect in jar

3. Connection Points:

- Earned from: Emotional games, deep conversations, teamwork
- Tracks: Emotional intimacy and attunement
- Visual: Interlocking rings that glow brighter

4. Vulnerability Points (VP):

- Earned from: Honest sharing, admitting faults, tough conversations
- Tracks: Courage and emotional risk-taking
- Visual: Diamond shards that form a crown

Leaderboard Algorithm:

text

Total Score =

$$\begin{aligned} & (\text{Trust Thermometer} * 10) + \\ & (\text{Romance Points} * 0.1) + \\ & (\text{Connection Points} * 0.2) + \\ & (\text{Vulnerability Points} * 0.5) \end{aligned}$$

Progression System:

Levels: 1-100 (with prestige levels after)

XP Sources: Games completed, fights resolved, streaks maintained

Unlocks: New games, Dr. Marcie outfits, UI themes, special features

Badges: 50+ achievement badges (collect them all!)

Subscription Model (Stripe Integration)

TIER 1: FREE PLAYERS

- 1 Daily Challenge per day
- 1 SOS per week
- 4 Emotional Connection games
- Love Arcade: Phase 1 only
- Basic relationship assessment
- Ads: Non-intrusive banner ads

TIER 2: PREMIUM (\$19.99/month or \$179.99/year)

- All 150+ games unlocked
- Unlimited SOS sessions
- Full Love Arcade (all 4 phases + 30+ games)
- Custom Dr. Marcie personality settings
- Healing Hospital access
- No ads
- Priority support
- Monthly relationship reports
- Double XP weekends
- Early access to new games

TIER 3: COUPLES THERAPIST EDITION (\$49.99/month)

- Everything in Premium PLUS:
- Therapist dashboard
- Client management tools
- Session notes integration
- Progress tracking for multiple couples
- White-labeled for practices
- Professional resources
- CEU tracking

IN-APP PURCHASES (Cosmetic & Functional):

- Dr. Marcie Outfit Packs (\$2.99-\$9.99)
 - Game Expansion Packs (\$4.99 each)
 - Date Night Idea Packs (\$3.99)
 - Anniversary Tools (\$5.99)
 - Crisis Intervention Toolkit (\$14.99 one-time)
 - "Skip Consequence" tokens (\$0.99 each)
-

6. LAUNCH CHECKLIST (ENGINEERING + UX)

ENGINEERING CHECKLIST

FIREBASE SETUP:

- Firebase Project love-actually-game created
- Firebase Authentication configured (Email, Google, Apple)
- Firestore Database schema deployed
- Firebase Realtime Database rules configured
- Firebase Storage rules with image compression
- Firebase Cloud Functions deployed (Node.js 18)
- Firebase Cloud Messaging configured
- Firebase Analytics initialized
- Firebase Crashlytics integrated
- Firebase Remote Config for A/B testing
- Firebase App Distribution for beta

REACT NATIVE GAME ENGINE:

- Expo SDK 51+ with TypeScript
- React Navigation 6 (7 tab structure)
- Gradient system implemented on all components
- Dr. Marcie overlay component (15+ animations)
- Real-time multiplayer sync (Firebase Realtime)
- Game template system for 150+ games
- Scoring system across all games
- Consequence engine logic
- Love Arcade progression system
- Offline play support with sync

AI & INTEGRATIONS:

- OpenAI GPT-4o API integration
- Anthropic Claude 3.5 API integration
- ElevenLabs TTS with lip-sync
- Giphy API for GIF Battle
- Google Maps API for Memory Lane
- Stripe Payments via Firebase Functions
- Sentry error tracking

PERFORMANCE & SECURITY:

- App loads <2s on 4G
- 60fps animations maintained
- Memory leaks tested and fixed
- Battery usage optimized (<5%/30min)
- Data encrypted in transit/at rest
- Input sanitization on all fields
- JWT token refresh working
- Rate limiting on all APIs
- DDoS protection configured

UX & GAME DESIGN CHECKLIST

VISUAL DESIGN:

- All buttons use #db147c → #f05d68 gradient
- All typography uses Inter font family
- Dr. Marcie overlay positioned correctly on 105+ screens
- Gradients don't band on any device
- Icons consistent (Feather Icons set)
- Loading states designed for all actions
- Error states with recovery options
- Success states with celebration animations

ANIMATION QUALITY:

- Dr. Marcie animations at 60fps
- Micro-interactions have haptic feedback
- Page transitions feel game-like
- Game animations feel rewarding
- Celebration animations (confetti, sparks, particles)
- Loading animations (skeleton screens, progress)
- No animation jank or frame drops

ACCESSIBILITY:

- Screen reader support (VoiceOver/TalkBack)
- High contrast mode available
- Dynamic text sizing
- Reduce motion option
- Color blind modes (3 types)

- All touch targets >44px
- Focus states for keyboard
- Alt text for all images
- Closed captioning for voice

GAME BALANCE:

- All 150+ games playtested for fun
- Scoring balanced across categories
- Difficulty progression feels fair
- Rewards feel meaningful
- Consequences feel playful, not punitive
- Love Arcade narrative flows naturally
- Multiplayer sync works flawlessly

LAUNCH PREPARATION

APP STORES:

- App Store Connect configured
- Google Play Console configured
- Screenshots for 6.5", 6.1", 5.5" displays
- App preview video (30 seconds)
- Description with keywords
- Privacy policy URL
- Support contact
- Age rating (17+)
- Content ratings
- In-app purchase products

BACKEND READINESS:

- Firebase production environment
- Cloud Functions scaled for launch
- CDN configured for assets
- Monitoring (Sentry, Firebase Performance)
- Backup system tested
- Disaster recovery plan
- Team access controls
- API rate limits
- Load testing (10k concurrent)

MARKETING & SUPPORT:

- Landing page: loveactuallygame.com
- Press kit (logos, screenshots, videos)
- Social media: @LoveActuallyGame
- Support email: support@loveactuallygame.com
- FAQ documentation
- Crisis response plan
- App store review strategy
- Launch announcement
- Influencer outreach list
- Paid advertising campaigns

LEGAL & COMPLIANCE:

- Privacy policy reviewed by lawyer
 - Terms of service reviewed
 - Subscription terms clear
 - Medical disclaimer prominent
 - Crisis resources verified
 - GDPR compliance
 - CCPA/CPRA compliance
 - Age verification for sensitive content
 - Content moderation policy
 - Record retention policy
-

7. SITEMAP & FEATURE LIST

COMPLETE NAVIGATION STRUCTURE

AUTH & ONBOARDING FLOW:

1. Splash → Legal → Login/Sign Up → Onboarding → Couple Linking → Home

MAIN APP (7 Tabs):

1. HOME — Dashboard, Trust Meter, Daily Quest, Leaderboard
2. GAMES — 7 Category Library (150+ games)
3. SOS — Fight Solver (floating button)

4. TRANSLATOR — Partner Behavior Decoder
5. LOVE ARCADE — 30+ Narrative Games (4 Phases)
6. ROMANCE HUB — Intimacy Games (15+)
7. PROFILE — Settings, Scores, Dr. Marcie Personality

GAME FLOWS:

- Game Library → Category → Game Lobby → Game Play → Results → Home

SOS FLOW:

- SOS Button → Emergency Modal → Booths → Reflection → Verdict → Repair → Results

TRANSLATOR FLOW:

- Input → Interrogation (3 Qs) → Translation → Action Plan → Follow-up

FEATURE LIST (COMPREHENSIVE)

- Arcade Scoring & Rewards
- Retro Visual Theme
- Cabinet Selection Interface

PHASE 4: ADVANCED FEATURES (Weeks 13-16)

- Partner Translator
- Consequence Engine
- Advanced AI Integration
- Real-time Multiplayer Games
- Camera/AR Games
- Audio/Drawing Games

PHASE 5: POLISH & LAUNCH (Weeks 17-20)

- All 150+ Games Implemented
- Performance Optimization
- Accessibility Features
- Localization Setup
- App Store Assets
- Beta Testing Program

- Marketing Materials
 - Launch Preparation
-

THE MOST IMPORTANT PART: This feels like a game because IT IS A GAME. Every interaction is gamified. Every therapeutic moment has points, levels, achievements. Dr. Marcie is your game host, not your therapist. The relationship is the game board, and you're both players trying to win—together.

Ready to build the most innovative relationship game ever created?
